

 threenitas

about us

Threenitas S.A. is a software engineering company .

At Threenitas we work directly with our clients to plan, design, and implement digital products & solutions.

All members of our team are professionals passionate about technology, who love exploring new products and services in order to stay on the cutting edge.

why interns

Aspiration

We are looking for talented students who aspire to learn and improve, show a strong desire to explore the digital world, and want to leave their mark while working on real world problems.

Improvement

We invest in our people's improvement, and we offer access to structured training and seminars. Any successful intern showing promise and desire for further development, will be offered a contract for full or part time employment.

Technologies

Our toolbox is packed with a variety of cutting-edge technologies. From back-end development and front-end development to mobile app creation, machine learning, management tools, and more, we're equipped to tackle any project.

Flexibility

Our team operates in a flexible manner, and consists of members working either on premise or remotely, so we are open to both options.

our culture

Growth mindset

The belief that a person's capacities and talents can be improved over time.

Team player attitude

A team player is someone who works collaboratively with others towards a common goal or objective.

Personal responsibility

Personal responsibility for work is about owning tasks, meeting deadlines, and taking accountability for actions and outcomes.

Two people who collaborate well will be about three times as effective as each of them operating independently, because each will see what the other might miss—plus they can leverage each other's strengths while holding each other accountable to higher standards

—Ray Dalio
